Our New One-Dollar Silver Certificates.

[Harper's Weekly.]
It is good to know that the new onedollar silver certificates have other qualities that make them interesting besides the title they give their holder to the possession of a silver dollar. Critics who have scrutinized them report that they spell "tranquillity" with one "l," and that Columbia appears upon them with her right arm around a young man, and her left arm extended, while she points with her left-hand index finger to the Constitution. This attitude, the critics think, represents her as left-handed. Perhaps so, but that is largely a matter of judgment. It seems fairly questionable in these times whether a woman who has a man in whom she has confidence is not justi-fied in holding on to him with her strongest arm, and in thinking her left hand quite good enough to point with. Moreover, there are those too who DEBTS AND PRICES—Five years ago I think one "I" enough for such tran-
